Re: Reference

To whom it may concern:

This letter is to convey the excellent service, dependability, and performance of the Kyocera TASKalfa copier. After 3 years of having this machine, we have only had to have it serviced for very minor details (cleaning, etc). The machine is very reliable, which is key in our business.

RJ Business Machines Ltd, and Rudolph especially, have been excellent in ensuring our machine runs at its highest performance level and that we, as customers, are continuously happy with their product.

I would recommend this machine (KYOCERA TASKalfa), and RJ Business Machines in general.

Thank you,
